

"I Joy Duriez- Have witnessed everything within longest novel and record attempt and the writing and the completion from the manuscript, to complete to all printed and publishable book material from start to end.

Spines of all measurements 50 inches long, 5 by 8 book measurement- 19,100 pages in MS word format, I have witnessed too, knowing they exist and have seen- Here we go again, and all are published available through the store and online purchasing and can be bought of any and all copies all measurements and documentations were auto summed through the publisher and also the Excel sheet provided...

I can test and believe that this would be more than accurate to say would be the longest novel and also the thickest in the world and the longest e-book also the record attempt would be passing Marcel Proust, and his former record of the longest novel if attainable, of this state 7/19/ 2021 document above was signed for the date of 2/ 1/ 2021 - Books were made at 419 Juniper St northern Cambria PA Barnesboro...

Marcel Ray Duriez, done within his bedroom, at times I acted as a beta reader, and even editor for the novels- I have overseen the entire documentation all printed material soft- document, to the final print digital file...

I notate the document thickness as well and given an Excel document to provide details. I have signed my name to acknowledge that this would be correct, the document will be above. Work count shows- around 2,600,000 words- all other books also listed in reports 90 books all, 75+ under Nevaeh- at this time 80,000 paragraphs all ISBNs listed and shown in photos.

(152.4 cm 1524 mm) Barnes and Noble print pages, last count in 2.8 million- last thickness is 4.4 feet, Characters with and without last in 15,000,000-

A handwritten signature in black ink, appearing to read "Joy Duriez".
